

## **Accessibility Plan**

**2021 - 2024**

## **Introduction**

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that "schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation". According to the Equality Act 2010 a person has a disability if:

- (a) He or she has a physical or mental impairment, and
- (b) The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education's guidance on statutory policies for schools. The Plan will be reviewed every 3 years or where operational needs dictate and approved by the Governing Body. The review process can be delegated to a committee of the Governing Body, an individual or the Head. At Greenmount Primary School the Plan will be monitored by the Headteacher and evaluated by the Pupil Support committee.

At Greenmount Primary School we are committed to working together to provide an inspirational and exciting learning environment where all children can develop an enthusiasm for life-long learning. We believe that children should feel happy, safe and valued so that they gain a respectful, caring attitude towards each other and the environment both locally and globally.

### **Aims:**

- Increase access to the curriculum for pupils with a disability, medical condition or other access needs
- To improve the physical environment of the school to increase the extent to which pupils, staff and other members of the school community with a disability, medical condition or other access needs can access education and associated services.
- Improve the delivery of information to pupils, staff, parents/carers and other members of the school community

**1)** The Accessibility Plan has been developed and drawn up based upon information supplied by the Local Authority, and consultations with pupils, parents, staff and governors of the school. The document will be used to advise other school planning documents and policies and will be reported upon annually in respect of progress and outcomes.

The Accessibility Plan is structured to complement and support the school's Equality Objectives, and will similarly be published on the school website. We understand that the Local Authority will monitor the school's activity under the Equality Act 2010 (and in particular Schedule 10 regarding Accessibility) and will advise upon the compliance with that duty. The Accessibility Plan will be published on the school website. The Accessibility Plan will be monitored through the Governor Resource committee. The school will work in partnership with the Local Authority in developing and implementing this Accessibility Plan. The Accessibility Plan may be monitored by Ofsted during inspection processes in relation to Schedule 10 of the Equality Act 2010.

**2)** Greenmount Primary School is committed to providing an environment that enables full curriculum access that values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to adhering to the principles of the Equality Act 2010 with regard to disability and to developing a culture of inclusion, support and awareness within the school.

**3)** Greenmount Primary School Accessibility Plan shows how access is to be improved for disabled pupils, staff and visitors to the school within a given timeframe and anticipates the need to make reasonable adjustments to accommodate their needs where practicable.

**Greenmount Primary School Accessibility Plan relates to the key aspects of physical environment, curriculum and written information:**

Increase access to the curriculum for pupils with a disability, adapting the curriculum as necessary. This includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or schools visits - it also covers the provision of specialist or auxiliary aids and equipment, which may assist these pupils in accessing the curriculum within a reasonable timeframe (If a school fails to do this

they are in breach of their duties under the Equalities Act 2010).

Improve and maintain access to the physical environment of the school, adding specialist facilities as necessary - this covers improvements to the physical environment of the school and physical aids to access education within a reasonable timeframe;

Where needed, adapt the delivery of written information to pupils, staff, parents and visitors with disabilities; examples might include adaptations to hand-outs, timetables, textbooks and information about the school and school events; the information should be made available in various preferred formats within a reasonable timeframe.

**4)** Whole school training will recognise the need to continue raising awareness for staff and governors on equality issues with reference to the Equality Act 2010.

**5)** This Accessibility Plan should be read in conjunction with the following school policies, strategies and documents:

- Health & Safety Policy
- Special Educational Needs Policy
- Supporting Children with Medical Conditions and Administration of Medicines Policy

**6)** The Accessibility Plan for physical accessibility relates to the Access Audit of the School, which remains the responsibility of the governing body. It may not be feasible to undertake all of the works during the life of this accessibility plan and therefore some items will roll forward into subsequent plans. An accessibility audit will be completed by the school prior to the end of each period covering this plan in order to inform the development of a new Accessibility Plan for the ongoing period.

**7)** Equality Impact Assessments will be undertaken as and when school policies are reviewed. The terms of reference for all governors' committees will include the need to consider Equality and Diversity issues as required by the Equality Act 2010.

## **Current good practice**

We gather information about any disability's or health conditions in early communications with parents and carers of children who are new to school, Family Support meet all newcomers at home and then have a further visit in school. Prior to starting a child with a disability or access needs, the parents and family support meet with the SENCO who can "plan ahead" for the child's needs.

For parents and carers of children already at the school, we ask parents to keep the school informed of any changes to the information they have provided. Regular meetings are held with parents if information is unclear. Regular visits by outside professionals are encouraged and facilities provided as necessary.

## **Physical Environment**

There are no areas of the school to which disabled pupils have limited or no access – in the case of a wheelchair user, a portable ramp is available if required. Disabled pupils are supported to participate in all aspects of the curriculum and extra-curricular activities. Some aspects of extracurricular activities present particular challenges, for example lunch and break times for pupils with social/interaction impairments, after-school clubs for pupils with physical impairments and school trips for pupils with medical needs; however all reasonable adjustments are made to support children in these instances.

## **Curriculum**

Through planning for individual need, we aim to provide as inclusive an approach as practically possible. Some areas of the curriculum present particular challenges, for example: PE for pupils with a physical impairment, however all reasonable adjustments are made to support as full an involvement as possible. We seek advice and support from the relevant professionals in order to ensure that we have made adequate and reasonable adjustments.

## **Information**

Different forms of communication are made available as needs are identified to enable all disabled pupils to express their views and to hear the views of others. Access to

information is provided in a range of different formats available for disabled pupils, parents and staff as needed.

### **Summary of Access Audit**

The school is housed in 2 separate one story buildings. All entrances to the school are either flat or have small steps – we do have a portable ramp available if required.

The main entrance has two sets of double doors wide enough for a wheelchair user, however the corridors in main school are narrower than the minimum 1200mm (1100mm at their narrowest) which could potentially present difficulties for a wheelchair user. There is a care suite in the main building – with hoist, wall mounted changing bed and wet room facilities.

The annex was built to modern standards, with double wide hallways, disabled access and disabled toilets.

Whilst we acknowledge that the size of the school site could potentially present challenges when moving between buildings, we make reasonable adjustments as the need arises – we have an outdoor lift to help facilitate travel between the main school and annex.

There is a red “guide bar” in the playground initially installed to help the movements of a blind pupil, it is weight-bearing and can be used to help facilitate walking in general.

The school does not have any dedicated visitor parking. Visitors to the school use on-street parking, however suitable arrangements for disabled visitors are made when appropriate.

There are disabled toilet facilities available in 2 of our buildings. These are fitted with a handrail and a pull emergency cord. The school has internal emergency signage and escape routes are clearly marked. Personalised evacuation plans are put in place as required.

### **Management, coordination and implementation and review**

We consult with other professionals and services when new situations regarding pupils with disabilities are experienced.

- o The SENCO and Senior Leadership Team work closely with the Local Authority.
- o We work closely with parents to consider their children's needs.
- o The policy is reviewed annually and/or as children's needs change.
- o The annual review is then shared with staff.

- o We make links with other schools to share best practice through regular SENCO network meetings and other communications as needed.

### **Complaints**

The school works, wherever possible, in partnership with parents to ensure a collaborative approach to meeting pupils' needs. If there are any complaints relating to the provision for pupils with access needs these will be dealt with in the first instance by the Headteacher.

The SEND governor or chair of governors may be involved if the complaint is not resolved satisfactorily.

## Action Plan

### Aim 1: To increase the extent to which disabled pupils can participate in the school curriculum.

Our key objective is to reduce and eliminate barriers to access to the curriculum and to ensure full participation in the school community for pupils, and prospective pupils, with a disability, medical condition or other access needs. Provision may include: Liaison with specialists, CPD for staff, a differentiated curriculum, specialist resources to support learning and access to the curriculum, a range of support staff including trained teaching assistants and access arrangements in place for statutory testing.

Targets	Strategies	Timescale	Responsibilities	Success Criteria
To liaise with pre-school providers to prepare of new intake of children into EYs.	To identify pupils who may need adapted or additional provision.	May – July for new reception intake.  All year round for nursery.	EYs Leader, SENCO and Family Support Workers.	Provision set in place ready for when the child/ren start school.
To liaise with other education establishment to prepare for intake of new children who transfer within year.	To identify pupils who may need adapted or additional provision.	Ongoing as need arises.	SENCO and Family Support.	Provision set in place ready for when the child/ren start school.
To review policies to ensure that they reflect inclusive practice and procedure.	To comply with Equality Act 2010.	Ongoing.	SLT and governors.	Clear collaborative working approaches through regular meetings, risk assessment reviews, provision reviews and action planning.

<p>To establish and maintain close liaison with outside agencies for pupils with additional needs.</p>	<p>To ensure collaboration between all key personnel.</p>	<p>Ongoing</p>	<p>SENCO/SLT and all teaching staff.</p>	<p>Clear collaborative working approaches through regular meetings, risk assessment reviews, provision reviews and action planning.</p>
<p>To include pupils with a disability, medical condition or other access needs as fully as possible in the wider curriculum including visits as well as extra-curricular provision.</p>	<p>Create personalised risk assessments and access plans for individual children. Liaise with external agencies, identifying training needs and implementing training where needed. Ensure that actions, including emergency evacuation procedures are clear and that staff are capable of carrying them out.</p>	<p>Ongoing.</p>	<p>SENCO/SLT and all teaching staff.</p>	<p>Evidence that appropriate considering and reasonable adjustments have been made.</p>

**Aim 2: to improve the physical environment of the school to increase the extent to which pupils with a disability, medical condition or other access needs can access education and associated services.**

Targets	Strategies	Timescale	Responsibilities	Success Criteria
Improve the physical school environment	The school will take account the needs of pupils with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting and colour schemes, clear signage and more accessible facilities and fittings.	Ongoing.	HT, SLT, site manager and governors.	Evidence that appropriate considerations have been made wherever physical school improvements are carried out.
Ensure that reasonable adjustments are made for pupils with a disability, medical condition or other access needs.	Create personalised risk assessments and access plans for individual pupils. Liaise with external agencies, identify training needs and implement training where needed. Ensure	Ongoing	HT, SLT, SENCO and all teaching staff and site manager,	As full as possible inclusion for all pupils. Safe evacuation in an emergency.

	that actions, including emergency evacuation procedures are clear and that staff are capable of carrying them out,			
To enable improved access to written information for pupils, parents and visitors.	Create and offer information in alternative formats. Access arrangements are considered and put into place for statutory testing.	Ongoing	Whole school team	Evidence that appropriate considering and reasonable adjustments have been made, so that parents can fully support their children in their education.
