

Home Learning – Reception

There are lots of ways you can help your child at home. Here are some key skills and knowledge you can support your child with.

Reading

Share books daily; bedtime is a lovely time to read together. Help your child to read their school book at least 3 times per week. These books may just have pictures at first so talk about what is happening in the pictures.

'Tricky words'

Your child will have some tricky words in their book bag. These words cannot be sounded out. Please just look and say them. Lots of practise is needed!

Name writing

Please help your child to write their name. Remember to use a capital letter at the beginning and lower case letters for the rest of the name like this: **S**afa **n**ot **S**AFA.

Counting

Practise counting to 20 by rote. Count any objects around the house up to 10. Look for basic shapes at home and outside eg circle, square, triangle, rectangle.
