

Your Background

I was born and raised in Beeston and have lived here most of my life. I am a qualified youth worker and have worked in the Youth & Community sector for the past two decades, working both for Leeds City Council and several local charities in Leeds. Both my degrees are in the Youth & Community field. I have always been passionate about helping young people & families. I thrive off seeing people reach their full potential in life. During covid I chose to retrain as a Secondary School Teacher and I'm really enjoying my new role.

What brought you to Greenmount?

I attended Greenmount Primary as a child myself alongside my siblings and hold some lovely fond memories of my time there.

What do you like about being a governor?

I enjoy the fact I can give back to the school I once attended and also serve my own community. I feel I have a wealth of transferable skills and expertise to share with colleagues at Greenmount in order to make sure we give children and families the very best opportunities to succeed.

Your thoughts about Greenmount

Greenmount is a very vibrant and welcoming school in the heart of the Beeston community. The staff are always going the extra mile to see children happy and healthy.

Your hobbies or interests?

In my spare time I love to get outside and enjoy the great outdoors. I am a keen hiker and regularly go for treks with family and friends. I feel really lucky to live in Yorkshire we have so much beautiful greenery and scenic places to visit. One of my favourite weekly walks is Ilkley Moors. I have done numerous charity walks over the years. I once climbed Mount Snowdon in Scotland for one of the biggest charities in the UK with over 200 people.
