

# Year 6

Are all the cities and counties in the UK the same?

## Useful books

## Key knowledge - five facts

I can locate the major cities of the UK on a map.

I can name which counties are adjacent to Yorkshire

## Key vocabulary

county

A county usually consists of several towns and the rural areas that surround them

region

A region is a specific area that has common features

topographical features

Topography describes the physical features of an area of land.

Major cities

major city means a city that has a population greater than one hundred thousand.

Directional language

Directional and positional words are the words we use to describe location, or where something is in relation to something else

I know that the UK is divided into regions called counties (there are 48 in England)

I can describe and compare the key topographical features of Yorkshire and 3 other counties.

I can name and locate some of the counties of the UK
