Spring 2	SDG13- Climate Action
Summer 1	SDG 15- Life on Land
Summer 2	SDG14- Life Below water

The Sustainable Development Goals- 2024-2025

- The Sustainable Development Goals are presented in Assembly every half term.
- They are then discussed with the Eco- Council and some simple actions are put in place for them and how as a school we can help the SDG targets to be met. For example monitoring how much food is wasted at lunch time, collecting food at harvest time to tackle SDG2 Zero Hunger.
- When opportunities arise, the Eco Council have get the opportunity to discuss the SDG with our link school in Kenya.
- The SDG's are prominent in all classrooms and children are aware of the Sustainable Development Goal of the term.
- Keep an eye on our school twitter page for more updates on our actions towards these Sustainable Development goals!
