Year 4

Are all climate zones the same?

Key knowledge - five facts

I can name and locate the main climate zones on a map- tropical, arid/dry, temperate, Mediterranean, Polar.

I can talk about the impact that people are having on the Earth's climate.

I can describe and compare different climate zones.

I know the names of some climate activists and can talk about how people are trying to stop climate change.

I know how the polar climates are changing.

Key vocabulary

Climate zone	An area with a distinct climate / weather type.
Climate change	Long-term shifts in temperatures / patterns
Polar	Climate with cool summers and very cold winters
Mediterranean	Climate with warm, wet winters and hot dry summers.
Temperate	Environment with moderate rainfall throughout the year.
Climate change activist.	Person who is committed to preventing / reducing climate change.
